

## **John Tamney Memorial Scholarship**

2025 – 2026 ASHRAE Southern California Chapter Student Scholarships will be granted to graduating high school seniors who have been accepted into a mechanical engineering or engineering technology program at any California college, university or community college. The scholarship grant amounts are generally between \$1000 and \$5000 for tuition, books and supplies and limited to no more than eight (8) students per calendar year.

For consideration by the Chapter, please submit the following documents listed below:

- Personal contact information – mailing address, phone, email address.
- Resume of academic and personal achievements and interests.
- Complete high school transcript with grade point average (GPA) - photocopy is acceptable.
- Letter of acceptance for entry into the Mechanical Engineering or Engineering Technology program at a California college, university or community college.
- One letter of recommendation from student's teacher or counselor
- Short essay (one page or less) on the student's academic and career goals.

Submit all documentation in electronic form (PDF preferred) to the Scholarship Selection Committee member listed below **no later than March 31, 2025**.
